

CERTIFICATE OF COMPLETION CHECKLIST

CALIFORNIA MODEL WATER EFFICIENT LANDSCAPE ORDINANCE (MWELC)

Upon completion of the landscape installation, the Project Applicant or their Designee shall submit to our office a *Certificate of Completion* package that verifies the landscape and irrigation was installed in conformance with the State Model Water Efficient Landscape Ordinance (AB1881). If the project has an associated building permit, a final T2 hold will be placed on the building permit. Final inspection and occupancy cannot occur until this completion package is approved. If the project is related to off-site improvements, the surety bond will not be released until this completion package is approved.

Timely submission of the Certificate of Completion is essential and is the responsibility of the applicant. The Designer of Record shall review the installation for compliance. The service of a Certified Irrigation Auditor is also required. This package and checklist is provided to assist the applicant in complying with the State Ordinance and to expedite approval of the Certificate of Completion. Allow County staff a minimum of 1-2 business days to review COC packages. Items 1-8 are required for the initial submittal for projects of 2,500 SF or greater. Submit complete package to landscape@saccounty.gov.

PROJECT ADDRESS/LOT #: _____ **DATE:** _____

PERMIT #: _____

<input type="checkbox"/> 1. Project Information Sheet See attached form. Fill in data and obtain Property Owner's or their Designee's signature. (§494)	<input type="checkbox"/> 5. Landscape & Irrigation Maintenance Schedule Attach schedule reflecting regular seasonal maintenance practices for planting areas & irrigation system (§493.5)
<input type="checkbox"/> 2. Certification of Installation See attached form. Signature on form shall be the designer of record (§494)	<input type="checkbox"/> 6. Irrigation Audit Report Attach irrigation audit report conducted by a third-party Certified Irrigation Auditor (§493.6)
<input type="checkbox"/> 3a. Soil Management Report Attach soil analysis report, if not previously submitted with the approved plans. (§493.1)	<input type="checkbox"/> 7. Images of Installed Landscape Provide sufficient quantity of images of installed landscape and irrigation equipment to verify installation per plans. Additional images may be requested.
<input type="checkbox"/> 3b. Soil Report Recommendations Implementation Document Attach documentation verifying implementation of the soils report recommendations. (§493.1)	<input type="checkbox"/> 8.
